The Thames Valley District School Board is committed to providing students with access to learning materials and equipment required to meet the curriculum expectations of a particular grade or course.

Students of the Board will be provided with all required texts, learning materials and equipment necessary to meet curricular requirements without the payment of a fee. Fees may be appropriate if schools choose to offer enhancements or supplementary materials beyond the core curriculum. These fees will be minimized in order to facilitate student participation. Student outcomes will not be compromised through these program enhancements.

The Thames Valley District School Board procedures ensure financial transparency, accountability and reporting. Schools will ensure that processes are in place to address financial hardship in a confidential manner, to provide equitable access to programs and activities.
