Policy No.: **2024**
Effective Date: **2011 Jan. 11**

Department: Director's Services

Reference(s): - Protection of Unrepresented Staff and Students

It is the policy of the Board to provide assistance to unrepresented staff or trustees in the event that the Board's indemnification procedures and policies and police assistance do not provide sufficient protection for unrepresented staff or Trustees as a result of their good faith performance of their duties or as a result of their position.

This policy does not preclude the ability of an individual to request or access Board documentation normally provided to the public or through formal Freedom of Information requirements.
